

English

Pupils will develop their writing by exploring what makes a good superhero, developing a character, and writing a newspaper article describing their hero's accomplishments. Pupils will further their listening skills by exploring a range of superhero stories and using these as inspiration for their own work.

Mathematics

Pupils will, through a range of practical activities, be further developing their understanding of Geometry in terms of position and direction. Later pupils will also enhance their understanding of money in various contexts and finally statistics and probability/chance.

Science

Pupils will continue their work about solids, liquids and gases including exploring how these three states of matter can be separated e.g. physically and through chromatography. Pupils will also take part in a full investigation about how to speed up dissolving jelly.

Computing

This unit will look at repetition and loops within programming. Pupils will create programs by planning, modifying, and testing commands to create shapes and patterns. They will use Logo, a text-based programming language.

Humanities

In our Geography unit about the United Kingdom pupils will further their understanding of their local area as well as the countries of the United Kingdom. They will go on to develop their knowledge of the importance of rivers and bridges in the economic success of our country.

P.S.H.E

In this unit we will look at media literacy and digital resilience; influences and decision-making such as online safety. We will discuss important issues on how the media, including online experiences, can affect people's wellbeing – their thoughts, feelings and actions.

Secondary Class AB

Newsletter

Spring 'A' 2022

Religious Education.

Pupils will further their understanding of the Sikh faith. They will learn about Guru Nanak and his teachings including being kind to one another. Pupils will also develop their knowledge of the 5K's – the symbols that Sikh's wear each day to show their devotion to Sikhism.

Physical Education

Pupils will develop their techniques in carrying out a range of circuit exercises. These exercises will include shuttle runs, star jumps, squats and hula hooping. They will further their understanding of why a warm up activity is needed before taking part in these exercises.

Creative

Pupils will be designing and creating biscuits this term. They will develop their knowledge of how biscuits are made and marketed to the public. We will be designing packaging and participate in taste testing!

Social Communication

Pupils will be furthering their understanding of how to develop problem-solving skills by learning about the life of Henry Brown. They will then develop their knowledge of how to use their voice by studying characters from SpongeBob Square Pants.

English

Find out and write what special powers the people in your family would like to have if they were superheroes'; and 'Make a wanted poster for a villain explaining what they have done, why they are wanted, and the reward!'

Mathematics

To help pupils develop their maths they should use...

<https://www.topmarks.co.uk/maths-games/5-7-years/shapes>

<https://www.topmarks.co.uk/maths-games/7-11-years/money>

<https://www.topmarks.co.uk/maths-games/5-7-years/data-handling>

Science

Watch and discuss these videos of separation and dissolving
