

Sean Brockbank (Cllr)- Governor Profile.

Hello!

I am a co-opted member of the governing body of Woodlawn School as one of the local Councillors, and it is a great honour to support the outstanding work that goes on every day of the school term. In my working life I work with children across a range of situations from where parents can't agree where children should live to working directly with children to understand their views and feelings.

I am a qualified Social Worker and have worked as a practitioner, manager and academic in many settings. As well as my professional background and focus on safeguarding children from harm, I am an enthusiastic and committed person who wants to meet as many parents and young people as possible and hear what they have to say about the school, what we do well and what can be even better.

It is such a privilege to work alongside people who are so focused on what matters for the children of Woodlawn and I look forward to meeting many of you soon!
