

English

Pupils will be developing their knowledge of biographies and reference books. They will read and discuss short biographies before writing their own, and explore reference books before completing a fact file.

Mathematics

Pupils will be revisiting addition and subtraction, using different resources to support this. From this, pupils will then develop their knowledge of geometry and in particular 2D and 3D shapes and their properties. After this, we will be learning about measure – mass and capacity.

Science

Pupils will be developing knowledge of chemical reactions. They will describe different types of chemical reaction; reactions with metals and acids; how to speed up reactions through a mix of theory and practical activities.

Computing

In computing this Half term, pupils will be focussing on 'Drawing and Desktop Publishing'. They will be practising their graphic skills and will learn to draw, group and manipulate objects to make a picture.

Humanities

Pupils will be focussing on Local and then International Geography. We will be exploring countries within the UK, as well as capital cities, rivers and flags. Pupils will then research an international country of their choice.

P.S.H.E

In PSHE this half term, pupils will be focussing on 'Managing Money and Planning for the future'. Pupils will be writing shopping lists, calculating costs, creating vision boards for their future goals and plan how they will achieve them.

Secondary Class GW Newsletter Spring 'B' 2022

Religious Education

Pupils will develop their understanding of how sounds are capable of provoking a variety of associations, feelings and sensations. They will also further their knowledge of ancient instruments that have been used in religious festivals.

Physical Education

Pupils will be carrying out various health and fitness circuits, even designing and taking part in their own. Following on from this pupils will develop their knowledge and skills in the sport of dodgeball.

Creative

In Creative we will be learning about Artists such as Da Vinci, Kandinsky and Banksy, whilst focussing on Observational Drawing, Graffiti Art, Duplication Art and looking at tone on 2D and 3D objects.

Social Communication

Pupils will continue to develop their understanding of the way countries are run by exploring the history of British democracy including Suffragettes, and the life of Nelson Mandela. They will further their knowledge of the difference between civil and

Computing

Practise these skills at home by encouraging pupils to draw a picture of the view from their window on a drawing application. Can they apply the skills they have been taught in the lessons?

Humanities

Use Google Maps to explore your local community, what can you locate and identify? For International Geography, choose a country of interest to research. Look at the flag, culture, language and food.

P.S.H.E

Practise simple activities at home that support managing money. A great way to do this is by setting challenges at meal times and writing shopping lists. Find a recipe you would like to cook as a family, budget yourself a set amount and see if you can find and buy all the ingredients within budget.
