

English

Pupils will be reading, writing & speaking/listening about non-fiction and reference books. This will include expressing and writing views on these texts.

They will further develop SPaG – including proof reading linked to their persuasive writing.

Mathematics

Pupils will apply knowledge of **geometry – position and direction** then **statistics** – analysis of and presenting in pictorial form, finishing the half term further developing their understanding of recognising and using **money**.

Science

Pupils will develop knowledge and understanding of relationships in an ecosystem. They will study food chains and webs; relationships between insects and crops; how organisms are effected by their environment.

Computing

Pupils will be learning to use and apply IT skills. This will involve creating a presentation, poster, drawing on the computer, researching, taking and including photos and typing up work using Word/Clicker.

Humanities

Pupils will learn about events beyond living history. This will include...

- The rise of the Vikings
- Battle of Hastings
- Great Fire of London

P.S.H.E

Pupils will further develop their knowledge of internet safety and staying safe online. Pupils will learn about effective communication, who we can and cannot trust, permissions & sources of information.

Secondary Class GW Newsletter Spring 'A' 2022

Religious Education

Pupils will explore the meaning of religious miracles. We will also define what miracles are and what a miracle in different religions is.

Physical Education

This half term PE will be delivered by Smile Through Sport. Pupils will develop skills and knowledge of tennis and cricket – skills will be developed practical sessions

Creative

Pupils will be learning to design and make various sweet and savoury snacks (that do not need cooking). Pupils will further develop their health and hygiene understanding and some work on graphics looking at food packaging.

Social Communication

Pupils will develop knowledge of British values. They will share their ideas and discuss other people's views. Pupils will also learn about rights & responsibilities. We will also review current affairs and have topical discussions around this.

English

Reading for pleasure and practicing their spellings, they bring home on a weekly basis.

Mathematics

Please use your login details to access My Maths. Logging in to play some of the maths games.

Other homework's will take the form of worksheets sent home.

Science

<https://www.bbc.co.uk/bitesize/guides/zpkq7ty/test>

Computing

Can pupils develop a poster or presentation at home using IT to enhance its presentation and realism of the real world.

Humanities

Can pupils find out about another event of their choice beyond living history? They could do a short write up, poster or presentation about this. Consider using the internet, books or YouTube to support.

P.S.H.E

Pupils to produce a piece of work to show they understand what they think it means to stay safe online. This could be a set of rules or a collage or even a poster.

Suggested Homework – GW class Spring 'A' 2022

Religious Education

<https://www.youtube.com/watch?v=zPsoFhUDLuU&feature=youtu.be&t=8>

<https://www.youtube.com/watch?v=zG7PPOaJnNM&feature=youtu.be>

Physical Education

Keep fit with Joe Wicks:

<https://www.youtube.com/watch?v=d3LPrhI0v-w>

Alternatively go for regular walks, swims or bike rides to help with fitness and mental health. Upload your videos/photos on to seesaw to share.

Creative

Create a series of photos in a collage or even videos uploaded to seesaw showing them making food items at home in a safe and hygienic way.

Social Communication

Do a short write up of some news reports over the course of a week. Even do your own news report, film/record and share on seesaw.
