

English

We will explore poetry for our final topic of the year. Our work will focus on exploring different styles of poetry, looking at the work of some famous poets and creating our own poetry.

Mathematics

This half term we will explore:

- Number & Place value
- Geometry: position and direction
- Money
- Statistics

Science-Physics

This half-term we will be studying Light to extend our Physics work. We will learn how light travels, how we see, reflection and refraction and the spectrum. This will involve practical tasks to investigate these concepts, working in small groups.

Computing

We will continue our work on Scratch this half-term. We will work on Scratch to develop our own games. Each week we will complete a series of challenges to develop coding skills.

Humanities- Geography

Our topic this half-term is Tourism. We will learn about how tourism impacts upon different places around the world, both positively and negatively.

P.S.H.E –

We will continue using the story of Desert Island to link in decision making around a community, building positive relationships within a community and the importance of a community. We will also draw on our own experiences within a community

Keely Crowther Newsletter Summer B 2023

Religious Education.

We will discuss the feeling of belonging, the purpose of belonging to something and how this makes people feel. We will also look at religious art, music and poetry to highlight their own purpose of religion.

Physical Education

Athletics. Where the weather is good, we will be going outdoors. We will focus upon racing, jumping throwing and relay events, adapted to suit the needs of all in class. A large focus will be upon developing sportsmanship and celebrating achievement of all in the class.

Creative- Musical Art

This half-term we will explore the link between music and art, and how this had influenced many famous artists and musicians. We will develop our listening skills and create our own art pieces as a result of listening to different pieces of music.

Social Communication

We will be completing our work on the Linking project this half-term. We are visiting the Laing Gallery with Percy Hedley School in June and will also take part in the end of year virtual celebration.

English

Visit a local library and read some poetry books.

What is your favourite poem?
Why?

Mathematics

Students have access to My Maths online.

Details can be found on the inside cover of homework books.

Science

Explore the BBC Science page to revise and extend your learning.

<https://www.bbc.co.uk/bitesize/subjects/zng4d2p>

Computing

Practise your skills further at home on Scratch.

<https://scratch.mit.edu/>

Humanities-

Explore tourism further at :
<https://www.bbc.co.uk/bitesize/topics/zcmfb9q>

Think about places that you would like to visit as a tourist. Make a list of your top 5 places. Think about why you want to visit them.
